Eclipse Rich Ajax Platform (RAP)

This is an exciting moment for me – the first book about Eclipse RAP has now finally arrived in print. “Eclipse Rich Ajax Platform – Bringing Rich Clients to the Web” by Fabian Lange A book is always a great endorsement for a technology. Having an author with no affiliation to the producers of the technology is even better.

The RAP book finally arrived - EclipseSource

Tool Support. Many of the Eclipse tools designed for Java or SWT development can be used with RAP. You can use the full power of the Java Development Tools (JDT) including automated refactorings, debugger, test runner etc. The Plug-in Development Environment (PDE) assists with the creation of OSGi bundles, dependency management, maintaining a target platform, etc.

Remote Application Platform (RAP)

If you're interested in single-sourcing Eclipse-based applications, please give it a try. In the 1.3 M5 release, the RAP team added more SWT API to make single sourcing existing applications easier:

Eclipse RAP 1.3 M5 Released - EclipseSource

```
runNonUiThreadWithFakeContext public static void runNonUiThreadWithFakeContext(Display display, Runnable runnable) Sometimes a background thread needs to access values that are stored in the session object that started the thread.
```

UICallback (Eclipse Rich Ajax Platform API Specification)

Eclipse Rich Ajax Platform (RAP) is an innovative toolkit for developing applications that will run as Rich Clients as well as Web Applications. This book introduces the required Eclipse Rich Client Platform (RCP) and OSG/i concepts used by Eclipse RAP.

Eclipse Rich Ajax Platform : bringing Rich clients into ...

The Rich Client Platform (RCP) is a powerful platform technology to build enterprise applications. With the help of Rich Ajax Platform (RAP), it gets more interesting because you can reuse your existing code base and development skills for a Web application, as you saw in Part 1 of this 'Rich Client Platform' series.

Rich Ajax Platform, Part 2: Developing applications

Eclipse Rich Ajax Platform (RAP) is a framework that empowers developers to build rich web clients “the Eclipse way.” From the latest Helios download, RAP Tooling has become a default component of the RCP bundle: So what exactly is the Eclipse paradigm? Can we benefit from it?

Introducing AxsJAX -- Access-Enabling AJAX Tuesday, November 13, 2007 Posted by Charles L. Chen and T.V Raman As the developer behind Fire Vox I've always wanted to make AJAX web applications truly usable for the blind and visually impaired. The challenge is that these users have to deal with a much higher learning curve than sighted users.

Introducing AxsJAX -- Access-Enabling AJAX

Not all trains run on time, but the Eclipse Foundation has kept to its schedule with its annual release train, this year named "Ganymede." For the third year in a row, the Eclipse community has delivered, on the same day as in previous years, numerous software updates across a wide range of projects.

Eclipse Release Is Great but Doesn't Reach the Cloud ...

Part of an ongoing initiative to make its products more open, Microsoft Corp. today announced at the Eclipse Summit Europe new solutions that help developers using the Eclipse platform take advantage of the new features in Windows 7 and Window Server 2008 R2, and reinforce Java and PHP interoperability with Windows Azure and Microsoft Silverlight.
