A neonatal intensive care unit, also known as an intensive care nursery, is an intensive care unit specializing in the care of ill or premature newborn infants. Neonatal refers to the first 28 days of life. Neonatal care, as known as specialized nurseries or intensive care, has been around since the 1960s. The first American newborn intensive care unit, designed by Louis Gluck, was opened in October 1960 at Yale New Haven Hospital. NICU is typically directed by one or more neonatologists and sta

### Neonatal intensive care unit - Wikipedia

Half (50%) of neonates were outborn and of them, 9 (2.5%) delivered at home. Two hundred-twenty (61.8%) of neonates delivered during the night-time hours. The majority of neonates 286 (83.3%) were admitted to neonatal intensive care units with room temperatures  $\geq 25$  °C .

Introduction: Resident training has changed significantly in recent years, resulting in reduced experiences and practice. Because pediatric residents have fewer required intensive care unit (ICU) rotations, we introduced a neonatal ICU (NICU) boot camp (2014–2015) that continues today to prepare residents immediately prior to beginning an NICU rotation.
