Instead, change management principles, tools, and deliverables need to be blended together with the project management plan from the start. In fact, change management should serve as the central hub in a project management approach beginning with project initiation, and continuing through to plan, execute, monitor and control, and project close.

The Intersection of Change Management and Project Management

The answer is simple: In an era when change is exponential, leadership and change management are inseparable. Development expert Patrick Forth likens the current landscape to a confrontation between an irresistible force and an immovable object. The irresistible force is the technology disruption that leaves no business unaffected.
