### The Space Merchants

The Space Merchants is a 1952 science fiction novel by American writers Frederik Pohl and Cyril M. Kornbluth. Originally published in Galaxy Science Fiction magazine as a serial entitled Gravy Planet, the novel was first published as a single volume in 1953, and has sold heavily since.

### The Space Merchants - Wikipedia

The Space Merchants, first published in 1952 is a science fiction gem. Telling the tale of a capitalistic-anarchic society from the perspective of an advertising executive, Pohl describes a world where ancient maxims have been turned upside down – such as “Power enables, and absolute power enables absolutely.”

The Space Merchants Book One Teagan Green dreams of escaping the drudgery of Earth and traversing the stars. How will her dreams come true when events from her past are intent on destroying her? As soon as Teagan Green turns eighteen, she leaves her painful childhood behind and travels as far as her credits will take her.

### The Space Merchants - Wendie Nordgren

The Space Merchants takes the tried and true concept of a woman destined for greater things escaping her dreary surroundings and opening herself up to a wider, more exciting world (or in this case, universe) but with a sci-fi twist. It starts slow and builds up as you get to know Teagan and her hopes, dreams, and personality.

About the Book One of the most savage and devastating attacks on modern consumer society and the advertising agents who are its high priests, THE SPACE MERCHANTS is uncomfortably prophetic. Two major advertising agencies are fighting for the Venus account–nothing less than total control of the Venus economy and markets.

The Space Merchants is a classic short satirical novel with an SF background. It's set in a relatively near 1950s future, one where we have huge growth in biotechnology and population growth and some stock flying-car-type things, but not much in the way of meaningful space travel other than moon colonies.
